Sarah A. Todd Memorial Home continues to work on the development of our reopening plan. We are starting to have outdoor visitation on October 27, 2020, weather permitting. We also allow compassionate care visits on a case by case basis according to federal and state guidelines. We will move forward with indoor visitation when able based on our outbreak status and the county positivity rate which follows federal and state guidelines. Thank you for your understanding and patience as we take care of your loved ones.
